Grefuga Studios **Unity Program Manager**

If you are like me, you could have a lot of projects in your Project listing in Unity. When I start a new project I like to have a clear list when I start Unity and only have the project I am focusing on be in this list.

On Disk

In The Cloud

UnityTest3

Path: D:\Projects\FBTest003 | Unity version: 5.6.2

Prototype003

Path: D:\Projects\TestPrototype | Unity version: 5.6.2

Prototype002

Path: D:\Projects | Unity version: 5.6.2

Tic_Tac_Toe_1.3

Path: D:\Projects\Tic Tac Toe | Unity version: 5.6.2

Run_Honey_Bear_2.2

Path: D:\Projects\RunBearRun | Unity version: 5.6.2

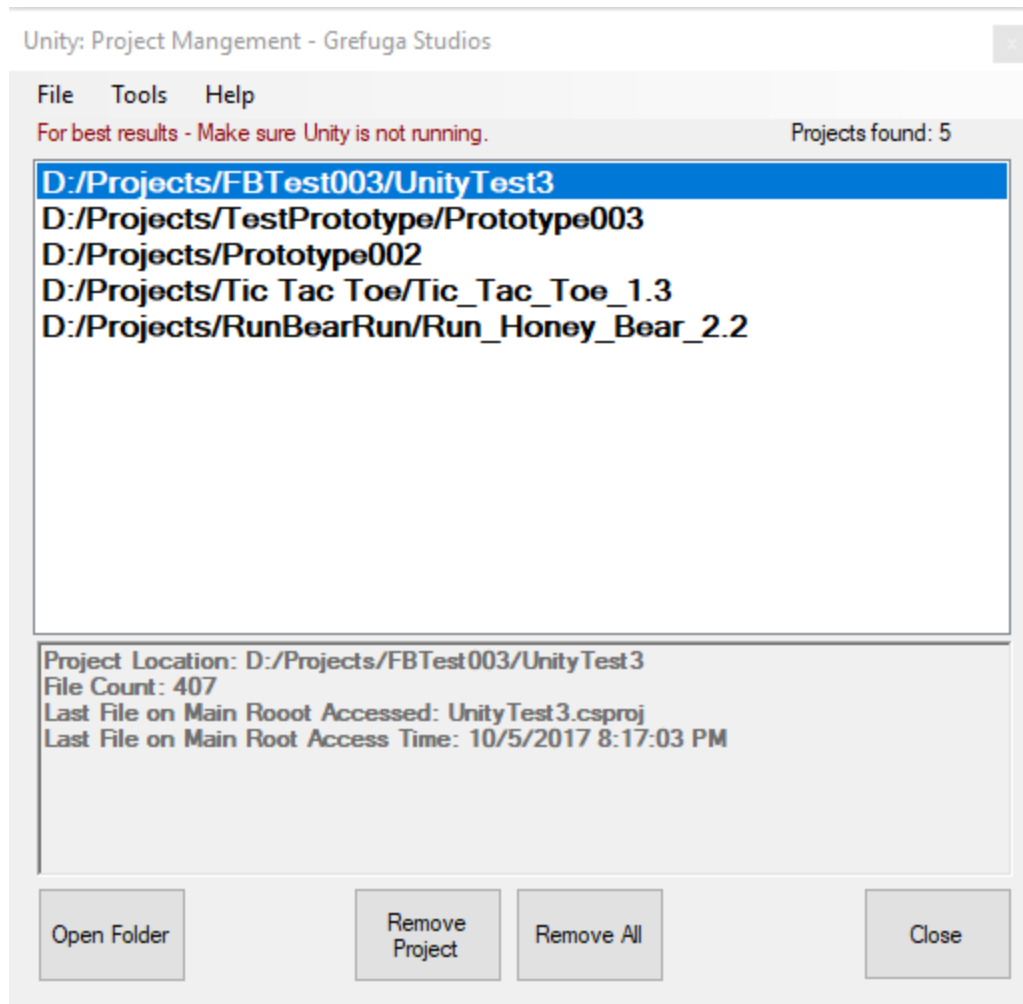

Internally at Grefuga Studios we have a tool to clear out this list entirely OR only remove one project. We decided to share this tool with the community.

Keep in mind this was part of a suite of tools, so it is not as pretty as it could be. But it does the job and we think you will be happy.

Make sure Unity is not running when you are managing your projects.

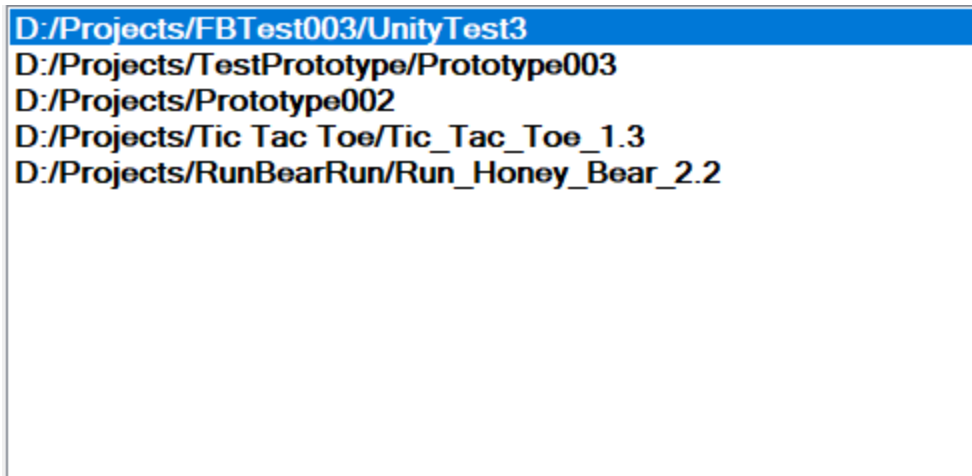

We are still in 5.6.x. So this tool is only for 5.X versions of Unity.

Make sure you take steps to protect your registry. Make a backup of your registry until you are comfortable using our tool. You assume all risk using this tool.

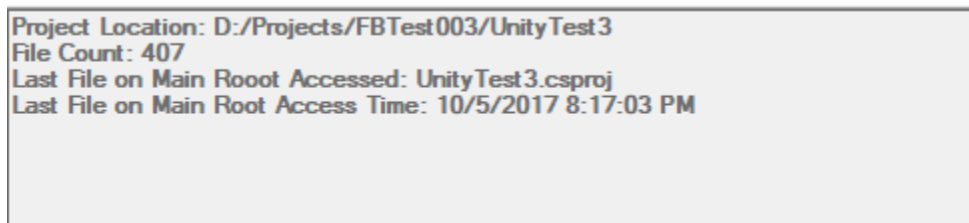

The main program window is broken in to several sections.

The first section lists which projects the tool found to be in your list

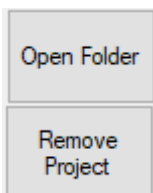

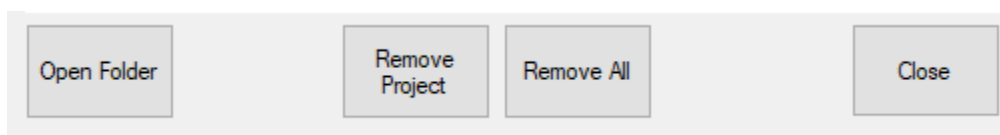

The next section gives a little stats on the proejct. This section may or may not be useful to you as it is to us – but we hope you can use it.

- It gives a file count
- location of the project
- the last file accessed
- the last time it was accesed

The Control panel sits at the bottom.

With a project selected, the system will open the folder containing your project.

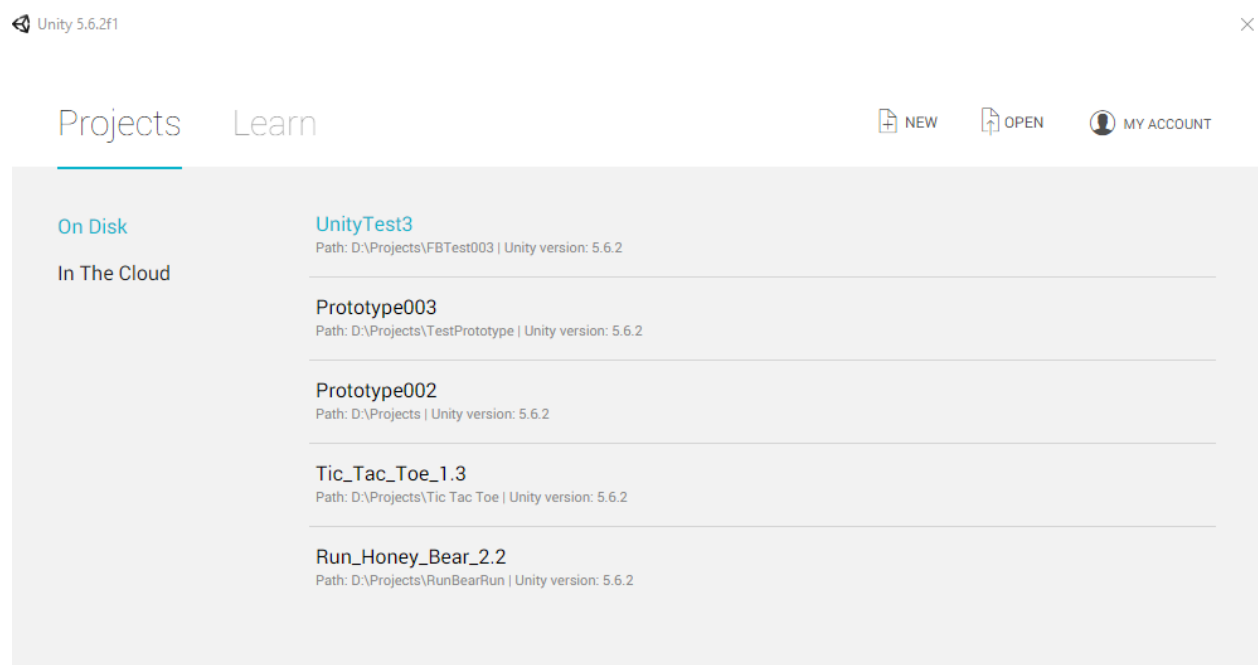

With a project selected, the tool will remove the project from your list inside Unity.

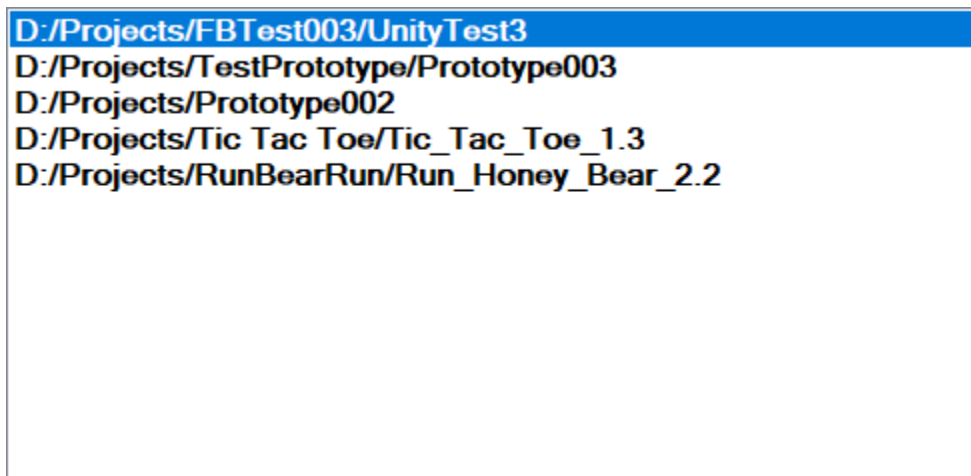

This will clear the list inside Unity.

This will close the Unity Project Manager.

Remove one Project

We will remove "UnityTest3". We do a lot of prototyping 😊

Remove

Delete Project Confirmation

You are about to remove 'D:/Projects/FBTest003/UnityTest3' from your project list in Unity.
Don't worry this will not remove the project from your system or repository. It will only be removed from your list.

Do you wish to remove the file from your list?

Yes

No

And the project 'UnityTest3' has been removed.

D:/Projects/TestPrototype/Prototype003
D:/Projects/Prototype002
D:/Projects/Tic Tac Toe/Tic_Tac_Toe_1.3
D:/Projects/RunBearRun/Run_Honey_Bear_2.2
